My Profile

Elliot Lawrence
DEVELOPER

About Me

I'm an AWS cloud support associate apprentice, splitting my time between structured study and real customer cases. I love building reliable web experiences and untangling infrastructure issues across the stack. Every project is a chance to sharpen my skills and ship dependable outcomes.

Experience

Amazon Web Services | Cloud Support Associate Apprentice
- 18-month programme combining certification study with customer case work across core AWS services.
- Triaging and resolving issues in networking, compute, and monitoring while documenting clear runbooks.

Sparefish Limited | React Developer
- Built pixel-perfect user interfaces for clients from UI-UX designs.
- Worked primarily on e-commerce web applications with Shopify integrations.

Prose | Co-Founder
- Web design and development of an Insurance SaaS product.
- Honed skills in Figma, React, Vite, Tailwind, and Shadcn.

Amazon Web Services | Intern
- Three months of AWS course work then one month of internship.
- Worked with a team to solve customer issues using AWS services.

Education

University of Auckland
Bachelor of Science in Computer Science (2024)

Recent Projects

One Dose Web App

Built an e-commerce journey for an Australian start-up simplifying pool chemical maintenance. Delivered a Shopify-integrated front end ready for launch in October 2025.

Prose

Streamlining how insurance brokers prepare proposals. Front-end owner designing a notion-like editor with Xero-level polish. Targeting production with a pilot user in Q2 2026.

Roam Wars

Co-building a location game blending Pokémon Go and Turf Wars. React front end with Postgres GIS on the back end; Strava integration in progress.

Capstone Project (Community Impact Award)

Created Trippa, a React Native/.NET/Azure carpooling app with real-time messaging and secure authentication. Recognised with the University of Auckland Community Impact Award.

Interests & Achievements [X]

Bouldering
Regular climber and occasional competitor in local events. I enjoy the problem-solving aspect and the community atmosphere both indoor and out.

Football
Former captain of an Auckland United team, leading practices and representing the club in competitions.

Motuihe/Motutapu Island Conservation
Volunteered in tree planting and environmental conservation projects, contributing to the restoration of native habitats and learning about New Zealand's unique ecosystems.

Duke of Edinburgh's Gold Award
Recognised for completing challenges in self-improvement, physical activity, volunteering, and expeditions.

Music Production
I produce various genres of electronic music as a creative outlet.

Gaming
Passionate about gaming, possibly too passionate, if my Steam hours are anything to go by.

Technical Skills [X]

- JavaScript, C#, Java, Python, SQL
- HTML, CSS, React, React Native, Tailwind, Shadcn, Vite, 3js
- AWS (EC2, S3, IAM, VPC, RDS), Azure, Firebase, Supabase
- Cloud troubleshooting, networking & monitoring basics, Git, Figma

Currently Learning [X]

- Vue, Svelte, Dart / Flutter
- MCP, Go, Rust, GCP, AWS

Personal Traits [X]

- Empathetic
- Polite
- Adaptable

Skills [X]

- Problem-solving
- Communication
